

CYBERCUP.IT 2025

DAVIDE MAIORCA

CYBERCHALLENGE.IT WORKSHOP
08/07/2025

WHAT IS CYBERCUP.IT?

Cybercup is the first, fully Italian CTF
Tournament specifically designed as a
continuation of CyberChallenge.it

MOTIVATION

Lack of an organized,
post-CyberChallenge.it
initiative for trained
students (outside Team
Italy)

Many students do not
find enough
motivation/fun/people
to continue their
technical growth

CTF Teams are often
created for fun, but they
easily split/change
during time, and do not
have a clear goal (aside
from CTFTIME OR big
tournaments)

GOALS

FUN AND FIGHT

Providing a new,
exciting, and fun
opportunity to
play CTFs for
post-
CyberChallenge.it
(and not only)
students

TEAM BUILDING

Favor the birth
and growth of
new Italian CTF
Teams (especially
from small-size
Universities)

GROWTH OF ITALY

Contribute to a
more advanced,
technical growth
of our Security
experts
